☐ What Customers Are Saying

Ajay R. – Mumbai

“My WordPress site on Lightsail was painfully slow. After optimization, load time dropped from 8s to 2s! Worth every penny.”

Lena M. – Berlin

“As a beginner with AWS, I didn’t know how to secure my server. This service made everything safe, fast, and stable.”

Chris D. – Texas

“Quick, efficient, and transparent. Now my Node.js app runs like a rocket ☐.”

❑ Frequently Asked Questions (FAQs)

Q: What access do you need from me?

A: Just the **Lightsail instance public IP** and **SSH key or temporary login credentials**. Everything is confidential and secure.

Q: Will you break anything on my server?

A: No! We always create a backup of the config before any change. Safe and tested practices only.

Q: Is this a one-time service or monthly?

A: This is a **one-time setup**. No recurring charges.

Q: Do you offer ongoing server maintenance?

A: Yes, starting from **\$10/month**, which includes uptime monitoring, security scans, and monthly updates.

Q: Can I request optimization for multiple servers?

A: Absolutely. Bulk discounts available – contact us for a custom quote.
