- **Fast Turnaround**: Quick and efficient setup.
- **Security Focused**: Essential security measures applied to every plan.
- **Affordable**: High-quality service at competitive prices.
- **Expert Support**: Always available for any queries or

additional help.

FAQ

1. What's the difference between the Basic and Advanced plans?

- The Basic plan is for quick setups with essential configurations, while the Advanced plan includes full security hardening, server monitoring, database setup, and app installations.

2. Can I upgrade from the Basic to the Advanced plan later?

- Yes! You can always upgrade your plan to suit your changing needs.

3. How long does it take to complete the setup?

- Both plans typically take 24 hours, depending on the complexity of the setup.

4. Do I need to provide the server hardware?

- Yes, you'll need to provide your own server. If you need hosting recommendations, we're happy to help!

5. Is there any ongoing maintenance after the setup?

- Our plans are one-time setups, but we offer ongoing server maintenance services at an additional cost.

6. Do you offer a refund if I am not satisfied with the

service?

- We offer a satisfaction guarantee. If you're not happy with the setup, we'll work with you to resolve the issue. Refunds are provided in exceptional cases.

7. Can I choose a specific operating system for my server?

- Yes, you can choose from popular operating systems like Ubuntu, CentOS, Debian, and others.

8. Will I be able to manage the server myself after the setup?

- Yes, once the server is configured, you'll have full access. We also provide guidance on basic server management, but additional support can be provided upon request.
